Venezuela

¡Elije tu propia aventura!

Foodies Adventure

It's hot in most of Venezuela all year around. Ice drinks are very popular, made by mixing tropical fruits, ice and some sweetened condensed milk in the blender.

Can you have a go in your kitchen making a sweet drink? Try *piña*—pineapple, *sandía*—watermelon, or even *limón*—lemon juice.

Don't forget to help *limpiar* (clean up)

Beach Lovers Adventure

There are hundreds of kilometres of tropical beaches in Venezuela. With warm waters from the Caribbean Sea, Venezuela's coast and neighbouring islands are a popular tourist destination for locals and visitors from other countries.

Here are some tropical beach lovers ideas:

- Make a picture of a tropical beach, include palm trees, clear water and white sand (perhaps you could design this on an electronic device)
- Get out a towel, beach toys and your summer hat and play in your loungeroom or backyard. Pretend to be on a tropical island!

Nature Adventure

Imagine exploring the world's tallest waterfall. *El Salto Angel*, or Angel Falls is more than 800mts high. So high, in fact, that when there isn't a lot of water falling, it evaporates before hitting the bottom!

To explore *El Salto Angel*, you can try any of these ideas:

- Head to the beach and make a tall sandcastle. Can you find a way to make a waterfall on your castle?
- Watch a 360° tour online (google Angel falls 360, and follow link to video)
- Make a model of a waterfall using recycled materials
- Get outside with the hose on a sunny day and see if you can use water and the sun to make a rainbow!

Listening Adventure

Use the website:

www.radio.garden

Locate Venezuela on the map and listen to different styles of music that are popular in this beautiful country.
